**Panasonic Life Solutions India** (PLSIND), along with **Panasonic Corporation** (PC), has announced **Red Health and Respi**  
**Sciences** as the joint winners of **Panasonic Ignition 3.0**, the company's startup accelerator programme focused on redefining the future  
of residential living in India.

### Innovation Aligned to Residential Challenges

Anchored around the theme "**Residential Business Challenges**," Ignition 3.0 spotlighted innovations across smart technologies,  
sustainability, wellness, connected living, and community focused solutions. The programme reflects Panasonic's long-term strategy of  
co-creating future-ready residential technologies with agile startups.

### Winning Solutions at a Glance

**Red Health** operates a technology-led emergency response platform offering end-to-end services from the "first minute to the last  
mile," addressing critical gaps in urban and residential emergency care.

**Respi**  
**Living Sciences** develops IoT-enabled energy recovery ventilators that maintain healthy indoor air quality while optimising  
energy efficiency an increasingly important requirement for modern homes.

### Rigorous Selection and Startup Collaboration

Organised in partnership with **Beyond Next Ventures**, Ignition 3.0 attracted **113 applications** from early- and mid-stage startups across  
India. Following a multi-stage evaluation, **11 startups** were selected into a three-month cohort where they participated in curated  
masterclasses, received mentorship from Panasonic experts, refined business models, validated technologies, and strengthened go-  
to-market strategies.

### Leadership Perspective

"India is now the world's third-largest startup ecosystem, growing at 12-15% annually," said **Tadashi Chiba, MD & CEO, Panasonic Life**

**Solutions India.** "Ignition 3.0 reflects our philosophy of 'Create Today, Enrich Tomorrow,' where innovation serves a larger purpose improving quality of life and building future-ready communities."

## Strategic Value Beyond Acceleration

**Kunio Gohara, Chief Transformation Officer and Head of the CVC Office, Panasonic Corporation,** highlighted that Ignition functions as a strategic investment pipeline. The programme enables Panasonic to identify founders who can become long-term partners and co-create solutions that scale across global markets.

## Accelerate Award Winners and Ecosystem Impact

Alongside the IGNITE winners, Panasonic also recognised **Ambiator, Biomoneta, Cantata, and Kubo Care** with **ACCELERATE awards**. These startups will collaborate with Panasonic on pilot deployments and explore mid-term strategic partnerships.

## Ignition's Evolving Legacy

Over three years, Panasonic Ignition has engaged with **700+ startups** and partnered with **46+ ventures**, evolving into one of India's most forward-looking open innovation platforms. Ignition 3.0 reinforces Panasonic's commitment to building **safer, smarter, healthier, and more sustainable homes** across India.

Keep building. Keep learning. Keep growing with **StartupByDoc**.
